The new idea of refurbished machines

Official Partner

Turn your machinery into cash: sell to us today!

We do it differently

Why choose us over the competitors?

- **Thorough technical inspection:** our experienced technicians conduct a comprehensive technical inspection of the machines our clients wish to sell, following a detailed checklist to ensure no aspect is overlooked.
- **Transparent valuation:** customers receive an in-depth evaluation that includes a fair market value of their machine, providing clarity and confidence in the transaction.
- **Attractive purchase offer:** we present a competitive offer to buy and collect the machine, making the selling process straightforward and hassle-free.
- **Secure payment process:** once the offer is accepted, a deposit is promptly paid. The remaining balance is settled on the day of machine retrieval, ensuring transparency and trust.
- **Support throughout the process:** we work closely with our customers to manage the dismantling and removal of the machine, ensuring a seamless and efficient experience from start to finish.

Our refurbishment process

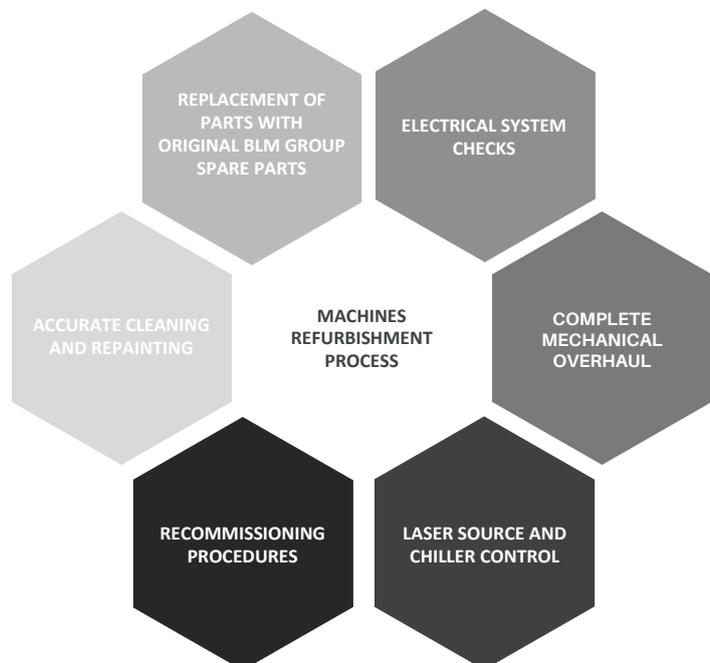

What we do exactly

- **Comprehensive 120-point checklist:** our skilled technicians perform a thorough inspection, leaving no aspects overlooked.
- **Original spare parts:** we replace any worn or damaged parts with original BLM Group spare parts, ensuring high quality.
- **Electrical system analysis:** a complete evaluation of the electrical system is conducted, with repairs or replacements made when necessary.
- **Performance and reliability testing:** each machine undergoes rigorous testing to verify its performance and reliability, giving you peace of mind.
- **Accurate cleaning and repainting:** our refurbishment includes a meticulous cleaning process and professional repainting, restoring your machine to its original condition.
- **Recommissioning procedures:** after refurbishment, we follow stringent recommissioning procedures to ensure everything operates smoothly.

Which machines can you sell to us?

We proudly refurbish and resell all BLM Group machines, including:

- Lasertube cutters
- Sheet metal laser cutters
- Sawing machines
- Tube bending machines

Good reasons to buy a refurbished machine

DG Tech
GUARDA AL FUTURO CON FIDUCIA

A turnkey solution

- **Affordable quality:** a refurbished machine offers a cost-effective alternative to new high-quality machinery, allowing you to enhance your operations without overspending.
- **Seamless delivery and installation:** we take care of everything! Our team will deliver and install the machine at your premises.
- **Guaranteed performance:** you can be granted a guarantee with your purchase, ensuring its reliability.
- **Expert training provided:** we offer training on machine operation, including CAD-CAM, Artube, Protube Expert courses, ensuring your team is fully trained to maximize productivity.
- **Reliable after-sales support:** our commitment to you doesn't end with the sale. We provide ongoing technical support to assist you whenever needed.
- **Access to original replacement parts:** enjoy peace of mind knowing that original replacement parts are always available for your refurbished machine.

Smart choices for companies looking to save money and improve efficiency!

Rent or buy? You can choose

Discover the benefits of renting a machine!

- **Hassle-free maintenance:** our rental agreements include comprehensive maintenance and service, ensuring your machine operates smoothly without added stress.
- **Tax-deductible installments:** enjoy the financial advantage of rental installments that are tax deductible, making it a smart choice for your budget.
- **Less bureaucracy:** avoid the need to report to the Central Risk Service, reducing administrative burdens and allowing you to focus on what matters.
- **No asset reflection:** renting means the machine won't be reflected as a company asset, providing greater flexibility for your financial strategy.

A virtuous cycle: from old to new, without waste

Our commitment to the circular economy is driven by a thorough regeneration process, resulting in the delivery of high-performing equipment ready for new challenges.

By choosing us, every machine gets a second chance, and every business can contribute to a more sustainable future.

Innovation, savings, and sustainability: the future of industrial equipment starts here.
